Philosophy of Discipline

The primary goal of the Polk County Public School system is to ensure that each student achieves at the highest possible level. Education is to be provided in a manner that does not discriminate or cause harassment based on race, color, religion, sex, age, natural or ethnic origin, political beliefs, marital status, disability, sexual orientation, or social and family background. For this to be conducted:

- Every school staff member will strive to create a positive, safe environment that encourages and supports student success. Underlying causes for misbehavior will be explored, and when possible, positive redirection will occur, and acceptable alternative behaviors will be taught. Such redirection may involve a collaborative effort of school, community and parents/guardians.
- It is the objective and policy of the School Board of Polk County to recognize, preserve and protect the individual rights of all students, and, at the same time, to encourage and enforce the exercise of these rights within the framework of an orderly and efficient school program. Within this framework, it is the duty of the School Board, the administrative staff, and the faculty of each school to prevent and to prohibit student conduct that becomes dangerous, disruptive or destructive, and therefore endangers the proper maintenance and function of the school program. Staff members are expected to model core value behaviors that set an example for students. It is expected that all disciplinary measures will be conducted in a manner that is respectful to the student and preserves that student's dignity wherever possible. It is the expectation that each student will behave in a manner that does not threaten, interfere with, or deprive other students of their right to an education and will accept responsibility for their behavior. An effective school environment must be safe and free from disruption. Progressive discipline using corrective strategies that consider the student's age, exceptionality, earlier conduct, probability of a recurring violation, intent, attitude, and severity of the offense shall be used in all instances.
- The school board further recognizes that students are protected and have certain rights extended to citizens under the United States Constitution and its amendments; and that these rights cannot be abridged except in accordance with the due process of law. Therefore, to clarify the guidelines of student behavior in the school and set up procedures to be followed, the school board has adopted the **Code of Student Conduct**. The code shall be mandatory and applied in a manner that is consistent with this philosophy of discipline. Individual schools may adopt added regulations governing actions not covered by the code, but such added regulations may neither substitute for nor negate any code provisions unless approved through the school board waiver process. It is essential that all students, their parents/guardians, teachers, support staff and administrators understand and abide by the Code of Student Conduct.

School, Students and Parents Working Together

To create a safe learning environment to ensure academic success, the parents, students and the school must work together. Supporting our students' behavioral, social and academic progress is critical to their success. There are a few basic things that all adults must do to guarantee student achievement:

- **Teaching Behavior:** All behaviors are skills, and the skills students use are learned from us. Follow these simple steps when teaching students how to act:
 - Everyone needs a clear idea of what student behavior should be: **Set Expectations**
 - **Teach and model** the expected behavior. Show them how to do it.
 - Supply opportunities to practice. **Role Play**
 - **Frequently reinforce** the expected behavior through specific praise and incentives.
 - **Acknowledging desired behavior** is **seven times** more effective than excluding a student for misbehavior.
- **Communication** between school and home is another key to success. When parents contact a teacher or someone else at the school, they can expect a helping response. In addition, when the teacher/school contacts the parent, it is expected that the parent will respond to the school.
- **Collaboration:** Student success depends on everyone working together, sharing ideas, developing common goals, focusing on the desired outcomes.
- **Relationship:** One of the most crucial factors in student success is a caring relationship with a significant adult.

Parents Can Help by Teaching, Monitoring and Reinforcing These Skills:

There are basic skills that all students need to be successful in school. These skills are:

Listening	Contributing to Discussions
Following Directions	Answering Classroom Questions
Asking for Help	Accepting Consequences
Cooperating with Others	Coping with Losing
Ignoring Distractions	Waiting for Adult Intervention
Accepting Responsibility	Dealing with Accusations

There are other things that parents can do to help their children be successful in school:

- **Teach Responsibility:** One effective way to do this is by having rules and expectations.
- **Establish Routines:** Bedtimes, a daily homework/practice time, a location at home for schoolwork to be completed.
- **Let them know school is important to you:** Reminding students before they go off to school of what you expect, monitoring achievement and homework through the parent portal, learning what social/behavioral skills are being taught in school and teaching them at home.
- **Listen to their day:** Asking questions about what happened at school and listening to their response:
 - What did you learn today?
 - What did you do in class today?
 - How was the bus ride to and from school?
- **Advocate for them:** Communicate with the school personnel who are important in your child's life. Be a part of every meeting at school.
- **Teach Self-Advocacy:** Students must develop the ability to find and express their needs, wants, preferences and goals.

Schools Will Create the Conditions for Student Success by Having:

- **A Well-Developed, School-Wide Expectations and Classroom Rules:**
To be effective, rules must be specific, taught (modeled and practiced), prompted, reinforced and often reviewed. They must cover specific expectations such as transitions, entering the room, getting started, and handling materials.
- **A positive school climate** that emphasizes dignity, respect, safety relationships and student engagement
- Professionals that know how to **find and reinforce expected behaviors**
- **Effective parent and student communication:**
 - Daily/weekly notes, e-mail, use of agenda
 - Positive and negative phone calls
 - Charting point earned
 - Monitoring behavior/academic contracts, behavioral/academic agreements
- **Engagement Strategies:**
 - Matching the curriculum and task to student learning level
 - Using activities that promote engagement, higher pace, more student responses
 - Knowing what you want the student to do and reinforce when the student does it
 - Monitoring student progress, teaching student to check his/her own progress and track progress
 - Supplying daily reminders in opening activities or at the beginning of the period about classroom expectations
- **Multiple levels of support for:**
 - Academics
 - Behavior
 - Attendance
- **Alternatives to exclusionary responses to misbehavior:**
 - Class-wide management strategies, including teaching and rewards, re-teaching needed behaviors
 - Reinforcement
 - Re-teaching expectations
 - Behavior Contracting
 - Increasing parent involvement and communication about behavior
 - Referral to the Student Success Team
 - Restorative practices
 - Counseling
 - Peer mediation, Conflict resolution
 - Removal of privileges
 - Development of specific behavior intervention plans

Notification of Rights: Protection of Pupil Rights Amendment (PPRA)

The Polk County School District administers the Polk County Prevention Survey and the Florida Youth Survey each year. All students in grades six through twelve are given the opportunity to take part in the Polk County Prevention survey. The Florida Youth Survey will be administered randomly to students in a limited number of middle and high schools selected by the state between January and February of this school year. The Polk County Prevention Survey will be administered in the fall between November and December of this school year. These surveys ask secondary students about demographic information and student behaviors including drug, alcohol, tobacco use, and school-related violence. The surveys are important in assessing our school district's needs, monitoring programs, and evaluating prevention program outcomes. Student participation in both surveys is anonymous. No personally identifiable information is requested as part of the survey or survey process. These surveys are voluntary, and students may choose not to take part. Students who **do** take part will not be needed to answer all the questions – only those they choose to answer.

As a parent, you have the right to prohibit your child's participation in either or both surveys. Neither you nor your child must give a reason for not taking part. Contact Mark Wilcox Center personnel at (863) 291-5355 no later than October 16th of this school year if you would like to review the surveys or if you do not want your child to take part.

Notification of Rights: Student Directory Information

The district shall make available, upon request, certain information known as "directory information" without prior permission of the parents or the eligible student. Directory information means information contained in an education record of a student that would not be considered harmful or an invasion of privacy if shown. Directory Information may be released to any individual, agency or organization without prior consent, unless a parent or eligible student has notified the School Board of Polk County (SBPC) in writing that they do not wish the information released. In addition, two (2) Federal Laws require the School Board of Polk County, Florida (SBPC) to provide military recruiters, upon request, with three (3) Directory Information categories – names, addresses and telephone listings, unless parents have advised the School Board of Polk County, Florida (SBPC) that they do not want their student's information disclosed without their prior written consent. **The school must verify that a written request to withhold any or all the Directory Information is on file at the school site. The Directory Information Opt-Out Form (Appendix A) is to be used for this purpose.** The Directory Information Opt-Out Form and the Parent Notification Letter (page 49) are to be given to parents on a yearly basis in the Code of Student Conduct. Notification of parental objection to release of "Directory Information" must become a part of the student's cumulative record and should be flagged on computer records as appropriate.

If you do not want Directory Information released, you must complete the Directory Information Opt-out Form (Appendix A) and return to school within thirty (30) days.

7540.03 – Student Technology Acceptable Use and Safety

Technology has fundamentally altered the ways in which information is accessed, communicated, and transferred in society. As a result, educators are continually adapting their means and methods of instruction and in the way they approach student learning to incorporate the vast, diverse and unique resources available through the Internet. The school Board provides technology resources (as defined in Bylaw 0100) to support the educational and professional needs of its students and staff. With respect to students, District technology resources afford them the opportunity to acquire the skills and knowledge to learn effectively and live productively in a digital world. The Board provides students with access to the Internet for limited educational purposes only and utilizes online educational services/apps to enhance the instruction delivered to its students. The District's computer network and Internet system do not serve as a public access service or a public forum, and the Board imposes reasonable restrictions on its use consistent with its limited educational purpose.

The Board regulates the use of District technology resources by principles consistent with applicable local, state and federal laws, the District's educational mission and articulated expectations of student conduct as delineated in the Code of Student Conduct. This policy and its related administrative procedures and the Code of Student Conduct govern students' use of District technology resources and students' personal communication devices when they are connected to the District computer network, Internet connection, and/or online educational services/apps or when used while the student is on Board-owned property or at a Board-sponsored activity (see Policy 5136).

Users are required to refrain from actions that are illegal (such as libel, slander, vandalism, harassment, theft, plagiarism, inappropriate access, and the like) or unkind (such as personal attacks, invasion of privacy, injurious comment, and the like). Because its technology resources are not unlimited, the Board has also instituted restrictions aimed at preserving these resources, such as placing limits on use of bandwidth, storage space, and printers.

Users have no right or expectation to privacy when using District technology resources (including but not limited to privacy in the content of their personal files, e-mails, and records of their online activity when using the District's computer network and/or Internet connection).

First, the Board may not be able to technologically limit access, through its technology resources, to only those services and resources that have been authorized for the purpose of instruction, study, and research related to the curriculum. Unlike in the past when educators and community members had the opportunity to review and screen materials to assess their appropriateness for supporting and enriching the curriculum according to adopted procedures and reasonable selection criteria (taking into account the varied instructional needs, learning styles, abilities, and developmental levels of the students who would be exposed to them), access to the Internet, because it serves as a gateway to any publicly available file server in the world, opens classrooms and students to electronic information resources that may not have been screened by educators for use by students of various ages.

Pursuant to Federal law, the Board has implemented technology protection measures that protect against (e.g. filter or block) access to visual displays/depictions/materials that are obscene, constitute child pornography, and/or are harmful to minors, as defined by the Children's Internet Protection Act (CIPA). At the discretion of the Board or the Superintendent, the technology protection measures may be configured to protect against access to other materials considered inappropriate for students to access. The Board also utilizes software and/or hardware to monitor online activity of students to restrict access to child pornography and other materials that is obscene, objectionable, inappropriate, and/or harmful to minors. The technology protection measures may not be disabled at any time that student may be using District technology resources, if such disabling will cease to protect against access to materials that are prohibited under the CIPA. Any student who attempts to disable the technology protection measures will be subject to discipline.

Technology Policies

The Superintendent may temporarily or permanently unblock access to websites or online educational services/apps containing appropriate material, if access to such sites has been inappropriately blocked by the technology protection measures. The determination of whether material is appropriate or inappropriate shall be based on the content of the materials and the intended use of the material, not on the protection actions of the technology protection measures.

Parents are advised that a determined user may be able to gain access to services and/or resources on the Internet that the Board has not authorized for educational purposes. In fact, it is impossible to guarantee students will not gain access through the Internet to information and communications that they and/or their parents may find inappropriate, offensive, objectionable, or controversial. Parents of minors are responsible for setting and conveying the standards that their children should follow when using the Internet.

Pursuant to federal law, students shall receive education about the following:

Safety and security while using e-mail, chat rooms, social media and other forms of electronic communications

The dangers inherent with the online disclosure of personally identifiable information

The consequences of unauthorized access (e.g., “hacking”, “harvesting”, “digital piracy”, “data mining”, etc.), cyberbullying, and other unlawful or inappropriate activities by students online and,

Unauthorized disclosure, use, and dissemination of personally identifiable information regarding minors

Staff members shall provide instruction for their students regarding the appropriate use of technology and online safety and security as specified above. Furthermore, staff members will monitor the online activities of students while at school.

Monitoring may include, but is not necessarily limited to, visual observations of online activities during class sessions; or use of specific monitoring tools to review browser history and network, server and computer logs.

Building principals are responsible for providing training so that Internet users under their supervision are knowledgeable about this policy and its accompanying procedures. The Board expects that staff members will provide guidance and instruction to students in the appropriate use of District technology resources. Such training shall include, but not be limited to, education concerning appropriate online behavior, including interacting with other individuals on social media, including in chat rooms, and cyberbullying awareness and response. All users of District technology resources (and their parents if they are minors) are required to sign a written agreement to abide by the terms and conditions of this policy and its accompanying procedures.

Students will be assigned a school e-mail account that they are required to utilize for all school-related electronic communications, including those to staff members, peers, and individuals and/or organizations outside the District, with whom they are communicating for school-related projects and assignments, unless the parent/guardian elected to opt out on the **“E-MAIL & SUPPLEMENTAL DIGITAL RESOURCE OPT-OUT FORM.”** Further, as directed and authorized by their teachers, they shall use their school-assigned e-mail account when signing up/registering for access to various online educational services, including mobile applications/apps that will be utilized by the student for educational purposes.

Students are responsible for good behavior when using District technology resources, i.e., behavior comparable to that expected of students when they are in classrooms, school hallways, and other school premises and school-sponsored events. Communications on the Internet are often public in nature. General school rules for behavior and communication apply. The Board does not approve any use of its technology resources that is not authorized by or conducted strictly in compliance with this policy and its accompanying procedures.

Students may only use District technology resources to access or use social media if it is done for educational purposes in accordance with their teacher’s approved plan for such use.

Users who disregard this policy and its accompanying procedures may have their use privileges suspended or revoked and disciplinary action taken against them. Users are personally responsible and liable, both civilly and criminally, for uses of District technology resources that are not authorized by this policy and its accompanying procedures.

The Board designates the Superintendent and school administrators as the administrators responsible for initiating, implementing, and enforcing this policy and its accompanying procedures as they apply to students' use of District technology resources.

5136 – Wireless Communication Devices

“Wireless communication device” (WCDs) as used in this policy are defined in Bylaw 0100.

The School Board is aware that WCDs are used by students and parents to communicate with one another. However, the use of WCDs on school grounds must be appropriately regulated to protect students, staff, and the learning environment. This policy sets forth the District's policy with respect to WCDs.

Pursuant to state law, students shall not operate a motor vehicle owned or leased by the District on or off school property, or personal motor vehicle on District property while manually typing or entering multiple letters, numbers, symbols, or other characters into a wireless communication device or while sending or reading messages on such a device, for the purpose of non-voice interpersonal communication, including, but not limited to, communication methods known as texting, e-mailing, instant messaging, and snap chatting.

At the discretion of the principal, students may use WCDs before and after school, during their lunch break, in between classes as long as they do not create a distraction, disruption or otherwise interfere with the educational environment, during after school activities (e.g., extra-curricular activities), or at school-related functions. Use of WCDs, except those approved by a teacher or administrator, at any other time is prohibited; and they must be powered completely off (i.e., not just placed into vibrate or silent mode) and stored out of sight.

WCDs intended and actually used for instructional purposes (e.g., taking notes, recording classroom lectures, writing papers) will be permitted, as approved by the classroom teacher or the building principal. However, the use of a WCD to engage in non-educational-related communications is expressly prohibited.

Students may not use WCDs on school property or at a school-sponsored activity to access and/or view Internet web sites that are otherwise blocked to students at school.

Students may use WCDs while riding to and from school on a school bus or other Board-provided vehicles or on a school bus or Board-provided vehicle during school-sponsored activities, at the discretion of the bus driver, classroom teacher sponsor/advisor/coach. Distracting behavior that creates an unsafe environment will not be tolerated.

During after-school activities, WCDs shall be powered completely off (not just placed into vibrate or silent mode) and stored out of sight when directed by the administrator or sponsor.

Under certain circumstances, a student may keep his/her WCD “on” with prior approval from the building principal.

Except as authorized by a teacher, administrator, or IEP Team, students are prohibited from using WCDs during the school day, including while off-campus on a field trip, to capture, record, or transmit the words or sounds (i.e., audio) and/or images (i.e., pictures/video) of any student, staff member, or other person. Using a WCD to capture, record, and/or transmit audio and/or pictures/video of an individual without proper consent is considered an invasion of privacy and is not permitted. Students who violate this provision and/or use a WCD to violate the privacy rights of another person may have their WCD confiscated and held until the end of the school day or until a parent/guardian picks it up and may be directed to delete the audio and/or picture/video file while the parent/guardian is present. If the violation involves potentially illegal activity, the confiscated WCD may be turned over to law enforcement. The prohibitions herein also include using a WCD or any other device to covertly listen-in or make a recording (audio or video) of any meeting or activity in school. This includes placing a WCD or other device with one or two-way audio and video communication technology (i.e., technology that allows a person to listen to live conversations and sounds taking place in the location where the device is located), within a student's book bag or other property of the student or on the student's person without express written consent from an administrator, IEP Team, or Section 504 Team.

“Sexting” is prohibited at any time on school property or at school functions. As set forth in state law, sexting is the knowing transmission or distribution to another minor by a computer or similar device any photograph or video of any person that depicts nudity and is harmful to minors. Sexting also includes possessing a photo of any person that was transmitted or distributed by another minor that depicts nudity. Such conduct not only is potentially dangerous for the involved students but can lead to unwanted exposure of the messages and images to others and could result in criminal violations related to the transmission or possession of child pornography. Such conduct will be subject to discipline and possible confiscation of the WCD.

WCDs, including but not limited to those with cameras, may not be activated or utilized at any time in any school situation where a reasonable expectation of personal privacy exists. These locations and circumstances include, but are not limited to gymnasiums, locker rooms, shower facilities, rest/bathrooms, and any other areas where students or others may change clothes or be in any stage or degree of disrobing or changing clothes. The Superintendent and building principals are authorized to determine other specific locations and situations where use of a WCD is absolutely prohibited.

Students shall have no expectation of confidentiality with respect to their use of WCDs on school premises/property.

Students may not use a WCD in any way that might reasonably create in the mind of another person an impression of being threatened, humiliated, harassed, embarrassed or intimidated. See Policy 5517.01 – Bullying and Harassment. In particular, students are prohibited from using WCDs to: (1) Transmit material that is threatening, obscene, disruptive or sexually explicit or that can be construed as harassment or disparagement of others based upon their race, national origin, sex (including sexual orientation/transgender identity), disability, age, religion, ancestry, or political beliefs; and (2) Engage in “sexting” – i.e., sending, receiving, sharing, viewing or possessing pictures, text messages, e-mails or other materials of a sexual nature (i.e., sexting) in electronic or any other form. As set forth in state law, sexting is the knowing transmission or distribution to another minor by a computer or similar device any photograph or video of any person that depicts nudity and is harmful to minors. Sexting also includes possessing a photo of any person that was transmitted or distributed by another minor that depicts nudity and is harmful to minors. Violation of these prohibitions shall result in disciplinary action. Furthermore, such actions will be reported to local law enforcement and child services as required by law.

Students are also prohibited from using a WCD to capture, record, and/or send test information or any other information in a manner constituting fraud, theft, cheating, or academic dishonesty. Likewise, students are prohibited from using WCDs to receive such information.

Possession of a WCD by a student at school during school hours and/or during extra-curricular activities is a privilege that may be forfeited by any student who fails to abide by the terms of this policy or otherwise abuses this privilege.

Violations of this policy may result in disciplinary action and/or confiscation of the WCD. The building principal may also refer the matter to law enforcement or child services if the violation involves an illegal activity (e.g., child pornography, sexting). Discipline will be imposed on an escalating scale ranging from a warning to an expulsion based on the number of previous violations and/or the nature of or circumstances surrounding a violation. If the WCD is confiscated, it will be released/returned to the student’s parent/guardian after the student complies with any other disciplinary consequences that are imposed, unless the violation involves potentially illegal activity in which case the WCD may be turned over to law enforcement. A confiscated device will be marked in a removable manner with the student’s name and held in a secured location in the building’s central office until it is retrieved by the parent/guardian or turned over to law enforcement. School officials will not search or otherwise tamper with WCDs in district custody unless they reasonably suspect that the search is required to discover evidence of a violation of the law or other school rules. Any search will be conducted in accordance with Policy 5571 – Search and Seizure. If multiple offenses occur, a student may lose his/her privilege to bring a WCD to school for a designated length of time or on a permanent basis.

A person who discovers a student using a WCD in violation of this policy is required to report the violation to the building principal.

Students are personally and solely responsible for the care and security of their WCDs. The Board assumes no responsibility for theft, loss or damage to, or misuse or unauthorized use of WCDs brought onto its property.

Parents/guardians are advised that the best way to get in touch with their child during the school day is by calling the school office.

7540.06 – District-Issued Student E-Mail Account

Students assigned a school e-mail account are required to utilize it for all school-related electronic communications, including those to staff members and individuals and/or organizations outside the District with whom they are communicating for school-related projects and assignments. Further, as directed and authorized by their teachers, they shall use their school-assigned e-mail account when signing up/registering for access to various online educational services, including mobile applications/apps that will be utilized by the student for educational purposes.

This policy and any corresponding procedures serve to establish a framework for student's proper use of e-mail as an educational tool.

Personal e-mail accounts on providers other than the District's e-mail system may be blocked at any time if concerns for network security, SPAM, or virus protection arise. Students are expected to exercise reasonable judgment and prudence and take appropriate precautions to prevent viruses from entering the District's network when opening or forwarding any e-mails or attachments to e-mails that originate from unknown sources.

Students shall not send or forward mass e-mails, even if educationally-related, without prior approval of their classroom teacher or the Superintendent.

Students may join list serves or other e-mail services (e.g. RSS feeds) that pertain to academic work, provided the e-mails received from the list serves or other e-mail services do not become excessive or exceed the students' individual e-mail storage allotment. If a student is unsure whether s/he has adequate storage or should subscribe to a list serv or RSS feed, s/he should discuss the issue with his/her classroom teacher, the building principal or the District's IT staff. The Assistant Superintendent of Information Systems and Technology is authorized to block e-mail from list serves or e-mail services if the e-mails received by the student becomes excessive.

Students are encouraged to keep their inbox and folders organized by regularly reviewing e-mail messages and purging e-mail once they are read and no longer needed for school.

Unauthorized E-Mail

The School Board does not authorize the use of its technology resources, including its computer network ("network"), to accept, transmit, or distribute unsolicited bulk e-mail sent through the Internet to network e-mail accounts. In addition, Internet e-mail sent, or caused to be sent, to or through the network that makes use of or contains invalid or forged headers, invalid or non-existent domain names, or other means of deceptive addressing will be deemed to be counterfeit. Any attempt to send or cause such counterfeit e-mail to be sent to or through the network is unauthorized. Similarly, e-mail that is relayed from any third party's e-mail servers without the permission of that third party, or which employs similar techniques to hide or obscure the source of the e-mail, is also an unauthorized use of the network. The Board does not authorize the harvesting or collection of network e-mail addresses for the purposes of sending unsolicited e-mail.

The Board reserves the right to take all legal and technical steps available to prevent unsolicited bulk e-mail or other unauthorized e-mail from entering, utilizing, or remaining within the network. Nothing in this policy is intended to grant any right to transmit or send e-mail to, or through, the network. The Board's failure to enforce this policy in every instance in which it might have application does not amount to a waiver of its rights.

The aim of the district is to build effective environments in which positive behavior is encouraged so that academic success can be achieved. Each school shall have in place a school-wide behavior management system based upon initiative-taking, educative and reinforcement-based strategies. Strip searches of students by school personnel are prohibited. Nothing in this provision shall be construed to obstruct a law enforcement officer in the performance of his/her duty.

► Section 2.15 – Student Transportation

Rules and Regulations Governing Behavior For Students Who Ride A School Bus: A student's violation of school board transportation policies, including Part IV, Breaches of Conduct, Section 4.07, School Bus Safety Rules and Part V, Serious Breaches of Conduct, Section 5.28, Serious Misconduct on a School Bus, and disruptive behavior on a school bus or at a designated school bus stop may be grounds for suspension of the student's **privilege** of riding a school bus, in-school suspension, out-of-school suspension, expulsion, or any other appropriate disciplinary action recommended by the principal and approved by the school board, and may also be reported to law enforcement officials with the possibility of criminal penalties being imposed.

► Section 2.16 – Tardies

A tardy is the absence of any student at the **start of class**. Excused and unexcused tardies will be defined the same as excused and unexcused absences. Students cannot be suspended out of school for unexcused tardies.

Technology Use: See Technology Policies (pages xv-xx)

Part Two / General Rules and Regulations

► Section 2.17 – Textbooks and Library Obligations

An obligation is defined as school property lost by a student. It is not a fine assessed by a school for late fees. (School Board Policy 6152 – Student Fees, Fines and Charges.) “School Fees” do not include library fines. Late fees are not transferable and should be removed at the end of the school year by each school.

Instructional Materials and Equipment – School Board Policy 2520: Failure to provide payment for the damage or loss may result in the suspension of the student from participation in extra-curricular activities, or the debt may be satisfied by the student performing community service activities at the school site as determined by the school principal.

Parent/student will be offered the following for satisfying:

- Replace a library book with a book in the same condition. The library media specialist must approve the title.
- Replace the same textbook title and edition from an outside source through purchase, a receipt is required to verify the purchase.
- Allow the student to work off the obligation at the rate of \$5.00/hour outside of instructional time.

Discipline and Appeal Procedures

Part Three

Part Three / Discipline and Appeal Procedures

► Section 3.01 – Disciplinary Actions

A student who is accused of misbehavior or a breach of this Code of Student Conduct will be presented to the principal or designee by the person having knowledge of the misbehavior or breach of conduct.

- A. Written Referral:** Violations shall be presented in written form and should be specific, showing details of the incident which have been seen, heard, or experienced.
- B. Student Notification:** The student will be placed on notice of the violation by the principal or designee and afforded an opportunity to explain.
- C. Initial Conference:** An initial conference shall be conducted by the principal or designee at each level of discipline.
 - 1) Charges and Evidence:** The principal or designee shall confer with the student, explain the charge(s) and evidence against the student, and allow the student an opportunity to present his or her side of the story prior to taking disciplinary action.
 - 2) Parental Assistance:** A good-faith effort shall be made by the principal or designee to employ parental assistance or other alternative measures prior to suspension, except in the case of emergency or disruptive conditions that require immediate suspension or in the case of a serious breach of conduct as defined under Part V, Serious Breach of Conduct.
- D. Parental Notification:** It is the parent/guardian's responsibility to keep current phone/contact/e-mail information throughout the school year. It is the parent/guardian's responsibility to inform the school or any changes. Changes can be made by calling the school or going to Parent Portal on the district website: www.polk-fl.net.
 - 1) By Telephone:** The principal or designee shall make a good-faith effort to notify the parent by telephone of the student's misconduct and the proposed disciplinary action. **All notification calls shall be documented. When parents cannot be reached, school administrators will call all telephone numbers listed on the student's emergency information card in an effort to notify the parent. Repeated efforts must occur to notify parent.** If the parent has provided the school with an e-mail address, you may send an e-mail but also must follow up with phone call and written notification.
 - 2) By Written Notice:** Regardless of whether there has been communication with the student's parent by telephone, the principal or designee shall, within twenty-four (24) hours of taking disciplinary action, send written notice to the parent describing the disciplinary action imposed and the reasons thereof. For Levels 1 through 3, this notice may be forwarded to the parent via the student; however, for Levels 4 through 8, the parent shall be notified written notice via U.S. regular mail.

► Section 3.02 – Progressive Discipline

When deciding what discipline action should be taken, the principal or designee shall consider the student's age, exceptionality, previous conduct, probability of a recurring violation, intent, attitude, severity of the offense, current supports in place/implemented and, whenever possible, shall impose disciplinary action in a progressive manner. Progressive discipline requires that the levels be used in a progressive manner moving sequentially through the Levels unless the severity of the incident calls for a higher level. In creating safer and more effective schools, our aim is to prevent inappropriate behavior through teaching and reinforcing proper behaviors. Schools will attempt to provide a range of interventions that are systemically applied to students based on their demonstrated level of need and address the role of the environment as it applies to the development and improvement of proper behavior.

Progressive discipline using corrective strategies that consider the student's age, exceptionality, previous conduct, probability of a recurring violation, intent, attitude, and severity of the offense shall be utilized in all instances.

All corrective strategies used by school site administrators must follow school board rules and policies. Inherent in these rules and policies is the philosophy of fairness and consideration for actions that are in the best interest of students.

The aim of the district is to build effective environments in which positive behavior is encouraged more than problem behavior so that academic success can be achieved. Each school shall have in place a school-wide behavior management system based upon initiative-taking, educative and reinforcement-based strategies. This plan is to be shared with parents, students, and staff continuously throughout the school year.

Part Three / Discipline and Appeal Procedures

Teachers are to have a consistent initiative-taking behavior management system within the classroom. Rules/expectations are to be displayed, taught and reviewed. Teachers are to inform/communicate with parents and students the rules/expectations of the class.

- A. **Levels 1 through 6:** The principal or designee has authority to impose disciplinary action beginning at Levels 1 through 6.
- B. **Levels 7 and 8:** The principal or designee may recommend the following levels of discipline for those offenses deemed by the principal or designee to seriously disrupt the educational process:
 - 1) **Level 7 – Alternative Education Program:** A recommendation for assignment to the Alternative Education Program is subject to the approval of the Superintendent or designee. Any student who violates the Code of Student Conduct while attending the Alternative Education Program may be subject to more severe disciplinary actions than those outlined in Part IV, Breaches of Conduct, and Part V, Serious Breaches of Conduct, of the Code of Student Conduct, including expulsion.
 - 2) **Level 8 – Expulsion:** A recommendation to expel a student from the Polk County School District is subject to the approval of the Superintendent, who upon granting approval, would then present a recommendation to the school board for final approval.
- C. **Referral to Law enforcement:** The administrator is responsible for ensuring that acts which pose a threat to school safety and/or criminal acts are reported to law officials. The administrator shall notify the Director, Discipline or Regional Assistant Superintendent if police are called to the school campus and must attempt to notify the parent of the involved student and document such attempts to notify the parent.

► Section 3.03 – Levels of Discipline, All Students

- A. **Level 1 – Parental Assistance** The teacher shall communicate with the student and the student's parent in an attempt to solve the discipline problem.
- B. **Level 2 – Office Intervention** The principal or designee may intervene to address student disciplinary matters in situations where the teacher's efforts in the classroom and with the parents are deemed unsuccessful by such administrator in resolving the student's misconduct.
- C. **Level 3 – Detention or Work Detail Programs** Detention is a form of discipline whereby the student is placed in a controlled educational setting before, during or after school hours. Detention served in the classroom will be at the discretion of the teacher. Work detail is a form of discipline involving a manual work program and requires parental consent. If the parent does not wish his or her child to participate in a work detail program or if the student fails to participate in a work detail assignment, the principal may impose an alternative method of discipline including an out-of-school suspension.
- D. **Level 4 – In-School Suspension** In-School Suspension is a form of discipline involving the student's temporary removal from his or her regular school program and placement in an Alternative Education Program at the student's regularly assigned school and denial of the privilege of participating in school activities. This program may include work detail (manual work on the part of the student and requires parental consent). In-School Suspension is not offered at all Polk county schools.
- E. **Level 5 – Out-of-School or Bus Suspension – Short-Term** Out-of-School Suspension – Short-Term is a form of discipline involving the temporary removal of a student from all classes of instruction on public school grounds and all other school-sponsored activities, or from the school bus for a period not to exceed three (3) school days.
 - a) **Requirements:** If the parent cannot be contacted, the student is not to be sent home during the school day.
 - b) **Parental Notice:** The principal or designee shall complete the notice of Out-of-School or Bus Suspension form and give a copy of the notice to the student for delivery to the parent and forward a copy of the notice by United States regular mail to the parent within twenty-four (24) hours of the decision to suspend the student.
- F. **Level 6 – Out-of-School or Bus Suspension – Long Term** Out-of-School suspension – Long Term is a form of discipline involving the temporary removal of a student from all classes of instruction on public school grounds and all other school-sponsored activities or from the school bus, for a period not to exceed ten (10) school days. The principal or designee shall follow the procedures set forth above (Level 5).

Part Three / Discipline and Appeal Procedures

- G. **Level 7 – Alternative Education Programs (Grades Kindergarten through Fifth)** The alternative Education Program is a form of discipline involving assignment and transfer to an Alternative Education Program designed to meet the needs of students who violate the Code of Student Conduct. Students in grades K-5 may only be assigned to an Alternative Education Program for an expellable offense as outlined in the Code of Student Conduct. Students **may** be assigned to such a program for the duration of the expulsion. Students assigned to Alternative Education Programs will be denied participation in extracurricular activities sponsored by any school or the district (except extracurricular activities in the assigned Alternative Education Program). Curricular or co-curricular participation in district activities may be approved on a case-by-case basis by Superintendent.
- H. **Level 7 – Secondary Alternative Education Programs (Grades Sixth through Twelfth)** The Secondary Alternative Education Programs are a form of discipline designed to meet the needs of students who violate the Code of Student Conduct. Students assigned to Alternative Education Programs will be denied participation in any activities sponsored by any school or by the district. These activities include but are not limited to Prom, Grad Night, field trips, athletics, Band, Chorus, academic competitions or commencement (except extracurricular activities at the assigned Alternative Education Program).
- 1) **Out-of-School Suspension:** When a student is assigned to a Secondary Alternative Education Program, an out-of-school suspension shall first be imposed to temporarily remove the student from the school and to allow the assignment to be processed.
 - 2) **Terms:** The term of assignment to a Secondary Alternative Education Program shall either be short term, forty-five (45) school days or long term, ninety (90) school days. The length of the term shall be determined by the school or representative from the office of discipline based upon the student's previous discipline history and severity of the offense. In addition, the proximity to a change of grading periods shall also be taken into consideration for a student's return to his or her regular school.
 - 3) **Release Criteria:** A student's attendance, participation, and progress (as evidenced by Expectations/Criteria for Release) while assigned to the Secondary Alternative Education Program will be reviewed by the site administrator to determine if the student has met criteria. The site administrator will schedule and conduct an exit meeting/staffing with the zoned school (to include but not limited to alternative school staff, zoned school staff, parents and the student recommended for release). The Superintendent may release a student from the Secondary Alternative Education Program before the normal length of stay.
- I. **Level 8 – Expulsion from School** Expulsion is a form of discipline involving the removal of a student from all classes of instruction on public school grounds and all other school-sponsored activities for the balance of the semester or school year, plus an additional semester or school year, if appropriate.
- 1) **Parental Notice:** Upon review and/or investigation of an incident which could result in a student being expelled from school or school bus transportation, the principal or designee shall complete and sign the Notice of Suspension and Recommendation for Expulsion form and give a copy of the notice to the student to be delivered to the parent and forward a copy by United States regular mail to the parent within twenty-four (24) hours of the notice of suspension.
 - 2) **Superintendent's Approval:** The principal or designee shall send a copy or an electronic copy of the Notice of Suspension and Recommendation for Expulsion to the Superintendent of Schools or designee for review and approval within twenty-four (24) hours of the violation or as soon as possible thereafter.
 - 3) **Report of Previous Alternative Measures:** The copy of the Notice of Suspension and Recommendation for Expulsion shall include or be accompanied by a detailed written report by the principal or designee on the alternative measures taken prior to the recommendation for expulsion.
 - 4) **Basis for Extension:** If, and only if, school board action on an expulsion recommendation is pending and the ten (10) day suspension period would expire before the next regular or special meeting of the school board, the Superintendent may extend the suspension through the date of the next regular or special meeting of the school board.
 - 5) **Educational Status:** The student who is the subject of the expulsion recommendation shall remain on suspension or, if applicable, be assigned to an Alternative Education Program or other program or granted a Stay (pursuant to Section 3.06) as deemed appropriate by the Superintendent, until the school board takes final action on the expulsion recommendation at its next regular or special meeting.
 - 6) **Alternative Educational Disciplinary Program for Expelled Students:** The expelled student may be eligible to attend an Alternative Education Program for Expelled Students. Any student expelled from any other school, school district, or school system must have the expulsion rescinded by that district prior to entering the Polk County School System and must enter through one of the Alternative Education Programs for Expelled Students.

Part Three / Discipline and Appeal Procedures

- **Final Order:** The parent shall be notified that his or her child may be eligible to participate in the Alternative Education Program for Expelled Students (unless expelled without services) upon receipt of a copy of the Final Order adopted by the school board.

- 7) **Early Re-Entry Program for Expelled Students:** The school board, in its sole discretion and acting upon the recommendation of the Superintendent, may rescind an earlier expulsion.

► **Section 3.04 – Adverse Impact Suspension for Felonies Committed Off Campus**

An out-of-school suspension may be imposed against a student who is formally charged by the State Attorney or other prosecuting attorney with a felony, or with a delinquent act which would be a felony if committed by an adult, for an incident which allegedly occurred on property other than public school property, if that incident is shown in an administrative hearing (described below) to have an adverse impact on the educational program, discipline, or welfare of the school where that student is enrolled. Students formally charged by the State Attorney's office with a felony shall be suspended from extra-curricular and co-curricular activities until adjudication is determined or the charges are dropped or reduced.

NOTE: A student arrested for an off-campus felony cannot be suspended pursuant to this section unless and until the student is formally charged by the State Attorney or other proper prosecuting attorney.

A. Notice of Adverse Impact Hearing: Prior to an adverse impact suspension and alternative education assignment being imposed, the principal shall immediately notify the student's parent, in writing, of the specific charge(s) against the student and of the student's right to a hearing as provided under Section 1006.09(2), Florida Statutes.

- 1) **Legal Requirements:** The notice of hearing shall also stipulate a date and time for the hearing which shall be not less than two (2) school days nor more than five (5) school days from the postmarked or hand-delivered date of said notice. If applicable, the notice shall also inform the parent of the conditions under which a waiver of suspension may be granted.
- 2) **Attendance at Hearing:** The student, the parent, the student's representative or attorney, and any witnesses required by the student or the principal may attend the hearing.
- 3) **Temporary Suspension:** Pending said hearing, the principal may temporarily suspend the student. Such suspension shall not exceed five (5) school days.
- 4) **Hearing Officer:** The Director, Discipline, or designee shall serve as the hearing officer and shall not be bound by rules of evidence or any other courtroom procedure, and no transcript of the Adverse Impact Hearing shall be required.
- 5) **Recommendation:** Following said hearing, the Director, Discipline, shall submit a decision to the principal and to the student's parent within five (5) days.
 - a) **Judicial Proceeding:** If it is determined that the student's presence would not have an adverse impact, the student shall remain in his or her school pending the outcome of the judicial proceeding.
 - b) **Educational Services:** If it is determined that the student's presence would have an adverse impact, the student shall remain on suspension. Such suspension shall not affect the delivery of educational services to the student, and the student shall be immediately enrolled in a daytime Alternative Educational Program or Adult School Program if the student has reached sixteen (16) years of age pending the outcome of the judicial determination.

B. Judicial Determination:

- 1) **Not Guilty:** If the student is found not guilty, the suspension and assignment to an Alternative Education Program shall be terminated immediately.
- 2) **Guilty:** If the student is found guilty of a felony, the superintendent shall have the authority to determine if a recommendation for expulsion shall be made to the school board in accordance with the expulsion procedures as outlined in Part III, Discipline and Appeal Procedures, Section 3.03, Levels of Discipline.

C. Crime of Violence: If such delinquent act or violation of law involves a crime of violence or a crime in which a deadly weapon was used, the arresting authority shall immediately notify the Superintendent or designee.

- 1) **Confidential Information:** except to the extent necessary to protect the health, safety, and welfare of other students and staff, the information shall be held confidential and exempt from the provisions of the Public Records Act and shall not be disclosed except to appropriate school personnel.
- 2) **Permanent Records:** The information furnished by the law enforcement agency shall not be placed in the student's permanent record and shall be removed from all school records no later than nine (9) months after the date of the arrest.

Part Three / Discipline and Appeal Procedures

► Section 3.05 – Subsequent Offenses

In determining whether to apply the discipline levels described in Part IV, Breaches of Conduct, or Part V, Serious Breaches of Conduct, for later offenses, the principal or designee may consider the following:

- A. Part IV Offenses:** If a student commits any new violation described in Part IV, Breaches of Conduct, and if that student has previously, in the same school year, committed any violation listed in Part IV described above or Part V, Serious Breaches of Conduct, then such new violation may be deemed a subsequent offense regardless of whether that particular new violation had been previously committed by that student.
- B. Part V Offenses:** If a student commits any new violation described in Part V, Serious Breaches of Conduct, during the same school year, and if that student has previously committed a violation listed in Part V, then such new violation may be deemed a subsequent offense regardless of whether that particular new violation had been previously committed by that student.
- C. Students Assigned To An Alternative Education Program:** any student who violates the Code of Student Conduct while attending an Alternative Education Program may be subject to more severe disciplinary actions than those outlined in Part IV, Breaches of Conduct, and Part V, Serious Breaches of Conduct, including expulsion (with or without services).

► Section 3.06 – Stay Order

If the parent does not agree with the disciplinary action Level 7 and 8 and intends to appeal such action, the parent may file a written request directed to the Superintendent for a stay order.

- A. Grant:** If the stay is granted, the student shall remain in school pending conclusion of the appeal proceedings.
- B. Deny:** If the stay is denied, the student shall remain on suspension or assignment to an Alternative Education Program; however, the parent may proceed with the appeal proceedings.

► Section 3.07 – Due Process, Level 7 & 8

If the parent does not agree with the disciplinary action imposed, the parent may appeal as follows:

- A. Step 1 – Principal’s Meeting – Levels 7 & 8:** The written notice of disciplinary action shall inform the parent of the right to an appeal meeting to be conducted by the principal within five (5) days of the notice (if requested by the parent).
 - 1) Request for Meeting:** If the parent does not attend the principal’s meetings or if the parent does not request a Step 2 hearing, it shall be assumed that the parent is in agreement with the disciplinary action imposed.
 - 2) Attendance:** The student and parent must attend the meeting and may have one (1) person in attendance at the meeting to stand for them. Any adult witness directly involved in the incident may also be present at the meeting, and any student witnesses may submit a written statement with the permission of his or her parent.
 - 3) Written Recommendation:** the principal or designee will affirm, cancel, or modify the disciplinary action and shall provide the parent with a written explanation of his or her decision within three (3) days of the meeting.
- B. Step 2 – Administrative Hearing – Levels 7 and 8:** If placement in an Alternative Education Program (Level 7) or Expulsion (Level 8) has been recommended and the parent does not agree with the decision at Step 1, the parent may continue the appeal as follows:
 - 1) Written Request:** The parent may request an administrative hearing to be conducted by the Director, Discipline or his designee. Such requests should be in writing or phone directed to the Director, Discipline, and must be received within two (2) days of the Step 1 Principal’s Meeting.
 - 2) Notice of Hearing:** Upon receipt of such request, the Director, Discipline or designee shall contact the parent and arrange a time and date for said Step 2 hearing which shall be conducted within a reasonable period of time subsequent to such request. Such notice shall be confirmed via telephone in writing or electronic notice and provided to the parent.
 - 3) Written Recommendation:** The Director, Discipline or designee shall review the prior recommendation, receive written and oral statements presented by the student, parent, and witness, and shall affirm, cancel, or modify the principal’s recommendation. Such decision shall be documented in written form and provided to the parent by hand delivery or U.S. regular mail.

Part Three / Discipline and Appeal Procedures

- C. Step 3 – School board Review – Level 8:** If expulsion has been recommended and the parent does not agree with the decision at Step 2, the parent may continue the appeal as follows:
- 1) Written Request:** The parent may request a hearing to be conducted by a licensed attorney appointed by the school board to serve as a hearing officer. Such requests should be in writing, directed to the Superintendent or designee, and must be received within two (2) days of the Step 2 hearing.
 - 2) Notice of Hearing:** Upon receipt of such request, the parent and hearing officer shall be contacted to coordinate a time and date for said hearing. Such notice shall be confirmed in writing and provided to the parent and the Principal by hand delivery, U.S. regular mail or electronic notice if available.
 - 3) Hearing:** The hearing officer shall review the prior proceedings and receive written and oral statements presented by the student, parent, and witnesses.
 - 4) Recommended Order:** The hearing officer shall give his or her recommendation to the school board attorney in the form of a Recommended Order. District personnel shall provide the parent with a copy of the Recommended Order by hand delivery or U.S. regular mail.
 - a) Notice of Final Action:** The parent will also be notified that the Recommended Order will be placed on the agenda for the next scheduled school board meeting for final action by the school board and shall also be informed of the time and date of said meeting.
 - b) Hearing – Sections 120.569 and 120.57, Florida Statutes:** The parent will also be notified of the right to request the school board to review the proceedings as provided in Sections 120.569 and 120.57, Florida Statutes, and of the right to an open or closed forum. Such request must be in writing and filed with the school board attorney no later than one (1) day prior to the scheduled school board meeting.
 - 5) Final Order:** A Final Order shall be presented to the school board for approval. Action taken by the school board shall conclude the appeal procedures at the administrative level and any further appeal must be filed with the District Court of Appeal, Second District, Lakeland, Florida.
 - a) Parental Notification:** A copy of the Final Order adopted by the school board shall be sent to the parent by U.S. regular mail.
 - b) Alternative Education Program for Expelled Students:** The parent will also be notified that his or her child may be eligible to take part in one of the Alternative Education Programs for Expelled Students.

► Section 3.08 – Discipline of IDEIA

Under the Individuals with Disabilities Education Improvement Act (IDEIA), students who have been identified as a student with a disability and are receiving Exceptional Student Education services are subject to additional disciplinary guidelines that are different from those for nondisabled students. The following procedures are designed to **supplement** the disciplinary procedures for nondisabled students found in the Code of Student Conduct. The disciplinary guidelines contained herein are for explanatory purposes only and are not intended to impose any obligation on Polk County Schools other than those contained in federal or state law. If this document conflicts with state or Federal Law, the state or Federal Law shall control. Except as set forth here, students with disabilities may not be excluded from educational programming on the basis of behavior that is a manifestation of their disability(ies). In addition, students with disabilities cannot be excluded from school without following the specific “change in placement” procedures as provided under the law. **Students with disabilities cannot be removed from school until all the procedures set forth below have been followed.**

It is the responsibility of the **LOCAL EDUCATIONAL AGENT (LEA)** at all IEP meetings to ensure that the rights of students and parents are not violated. It is important that the opinions of all team members involved are considered in the decision-making process.

GENERAL REQUIREMENTS FOR ALL SUSPENSIONS/EXPULSIONS OF IDEIA ELIGIBLE STUDENTS:

Administrators may not suspend students with disabilities for more than ten (10) school days (consecutively or cumulatively) in a school year without following the procedures set forth below.

The law provides that the suspension or expulsion of a student for more than ten (10) consecutive school days in a school year is a “change of placement” that can only be made by following the procedures set forth in the IDEIA. The IDEIA also supports significant procedural safeguards for students who are suspended for more than ten (10) cumulative school days.

Part Three / Discipline and Appeal Procedures

- A. Accurate Record:** An accurate record must be maintained as to the number of days that students with disabilities are suspended from school during each school year, and each school must input the required suspension data on the appropriate Focus screen.
- B. Alternatives to Suspension:** Administrators and deans must also consider alternatives to out-of-school suspension for students. This list includes but is not limited to the following:
- 1) Modifications to the IEP including Positive Behavior Intervention Plan (PBIP) in current placement; change of current placement for added services
 - 2) Parental aid
 - 3) Office intervention
 - 4) Referral to guidance or other student services
 - 5) Behavior agreement with student and/or parents
 - 6) Detention
 - 7) Work detail
 - 8) In-school suspension

When suspension for ten (10) school days or less is contemplated or warranted under school policy, the requirement for an informal conference, as is held with nondisabled students, must be followed. The following steps must be taken before the short-term suspension of a student with a disability can occur:

- A. Previous Suspension History:** The principal/designee must obtain the previous suspension history of the student for the school year to determine the number of days the student has already been suspended during that school year.
- B. Determination of Suspension:** If it is found that the student is guilty of the offense, a short-term suspension may be warranted. However, the process for imposing a suspension will be different **depending upon the number of days the student has already been suspended during the school year.**
- 1) **Suspensions of Less than the Ten (10) Day Maximum:** If suspension of the student has not already exceeded ten (10) days for the school year, the student may be suspended for the remaining days. At this juncture, the student and the student's parent(s)/guardian(s) must be informed in writing of the disciplinary action that will be taken and all other procedures must be followed as required for short-term suspension of nondisabled students.
 - 2) **Suspensions of More than the Ten (10) Day Maximum:** Beginning on the eleventh (11) consecutive/cumulative school day of removal in a school year, the school district must provide services to a student with a disability, consistent with the following: The school district must provide services to such a student to the extent necessary to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP.
- C. IEP Review:** A review of the student's IEP must occur if a suspension that will result in an excess of ten (10) days during the school year is contemplated. The IEP review meeting is met as any other IEP meeting would be, and all proper procedures must be followed for convening the Team.
- 1) **Prior Written Notice Must Be Provided to the Parents:** Reasonable written notice of the meeting must be provided to the parent(s)/guardian(s). Because disciplinary IEP meetings may need to be held more quickly than a typical IEP meeting, "reasonable notice" could include telephone contact with the parent(s)/guardian(s) to obtain their agreement to attend, followed immediately with the written notice.
 - 2) **Manifestation Determination:** A manifestation determination must be made any time disciplinary procedures result in a change of placement. The IEP team must decide as to whether the behavioral incident at issue was a manifestation of the student's disability. This is required because a student with disabilities cannot be excluded from school for more than ten (10) cumulative/consecutive days in a school year on the basis of behavior that is caused by his/her disability or be subject to a series of removals which constitute a pattern because the removals cumulate to more than ten (10) school days in a school year. A manifestation determination, consistent with the following requirements, will be made within ten (10) school days of any decision to change the placement of a student with a disability because of a violation of the Code of Student Conduct.

Part Three / Discipline and Appeal Procedures

- a) In concluding the review, the school district, the parent, and the relevant members of the IEP team will:
 - I. Review all relevant information in the student's file, including any information supplied by the parents of the student, any teacher observations of the student, and the student's current IEP.
 - II. Determine whether the conduct in question was the direct result of the school district's failure to implement the IEP or whether the conduct in question was caused by or had a direct and substantial relationship to the student's disability.
- b) If the school district, the parent, and relevant members of the student's IEP team determine that either of those conditions was met, the conduct must be determined to be a manifestation of the student's disability. Immediate action to remedy those deficiencies must be taken.
- c) If the school district, the parent, and relevant members of the IEP team determine that the conduct was a manifestation of the student's disability, the IEP team will either:
 - I. Conduct a functional behavioral assessment (FBA), unless the school district had conducted an FBA before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan (BIP) for the student; or
 - II. If a BIP has already been developed, review and modify it, as necessary, to address the behavior, and
 - III. Return the student to the placement from which the student was removed unless the parent and the school district agree to a change in placement as part of the modification of the BIP.

D. Prior Written Notice of the IEP Team's Recommendations Must Be Provided to the Parents: At the IEP meeting, the opportunity for parent participation in the decision-making process is essential. However, if the parents do not attend, a copy of any minutes and other documentation created by the IEP team shall be provided to the parents. In addition, documentation sufficient to provide written notice of the IEP team's decisions must be provided to the parents, along with the Procedural Safeguards form. Once the parents have received notice of the IEP team's decisions and the Procedural Safeguards, the IEP team's recommendations may be implemented.

INTERIM ALTERNATIVE EDUCATION SETTING (IAES):

Students with disabilities may be removed to an IAES for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student's disability if the student at school or on school premises, or to a school function, carries or possess a weapon, knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, or has inflicted serious bodily injury upon another person.

NOTE: First offense for drugs or controlled substance must follow **Section 5.10 – DRUGS of the Code**.

- A. Procedures:** On the date on which the decision is made to make a removal to an IAES, the school must notify the parent of the decision and provide the parent a copy of the notice of procedural safeguards. A manifestation/IEP meeting must be held within ten (10) school days of the removal.
- B. Prior Written Notice of the IEP Team's Recommendations Must Be Provided to the Parents:** At the IEP meeting, the opportunity for parent participation in the process is essential. However, if the parents do not attend, a copy of any minutes and other documentation created by the IEP shall be provided to the parents. ► Section 3.09 – Discipline Procedures

Students covered under Section 504 of the Rehabilitation Act of 1973 cannot be denied services based solely on their disabilities. Such a student may not be suspended from school for more than ten (10) consecutive school days or a series of suspensions within a school year that exceeds ten (10) cumulative days (if it is determined that a pattern of exclusion creates a change of placement) without following the change of placement procedures. A student with a 504 Plan must have a Manifestation Determination Meeting before being reassigned to an alternative site for a disciplinary incident.

Part Three / Discipline and Appeal Procedures

- A. The school-based 504 Team should review all pertinent data and hold a manifestation determination meeting regarding the student prior to any disciplinary removal for more than ten (10) days.
 - 1) If the behavior is caused by the disability, the student may not be removed for more than ten (10) consecutive school days (unless the behavior is drug-related).
 - 2) If the behavior was not a manifestation of the disability, the student may be disciplined the same way the student without disabilities is disciplined.
- B. For a student who is currently engaged in the illegal use of drugs, school personnel may take the same disciplinary action as is taken for students without disabilities. No manifestation determination is required.

Breaches of Conduct

Part Four

When deciding what disciplinary action should be taken, the principal or designee shall consider the student's age, exceptionality, previous conduct, probability of a recurring violation, intent, attitude, severity of the offense, current supports in place/implemented and, whenever possible, shall impose disciplinary action in a progressive manner.

Part Four / Breaches of Conduct

Schools will supply a continuum of services to address the problem. These interventions are systemically applied, match the problem, and have sufficient intensity to address the need.

The goal of all consequences is to change the behavior. If a strategy is not changing the behavior, a new strategy is needed.

Progressive discipline requires that the levels be used in a progressive manner moving sequentially through the Levels unless the severity of the incident warrants a higher level. In creating safer and more effective schools, our aim is to prevent inappropriate behavior through teaching and reinforcing proper behaviors. Schools will attempt to provide a range of interventions that are systemically applied to students based on their demonstrated level of need and addresses the role of the environment as it applies to the development and improvement of appropriate behavior.

The following described acts or violations in this Part IV shall constitute Breaches of Conduct and include acts or conduct occurring at school or at school-sponsored activities, or on school property, a school bus or at a designated school bus stop if witnessed by a bus driver and/or bus attendant and shall not be confined to acts or conduct occurring on the school campus, if such acts or conduct directly affects the educational process or welfare of the school community.
